TECHNOLOGIES

EXPERIENCE

WEB DEVELOPER

Uplift Code Camp

Aug 2021 - Nov 2021

Created grading sheet component as an additional feature on an existing website. The feature allows an instructor to give students a grade for each subject. Instructors can also add/edit an activity for each subject. It has a table where each cell for the grades are inline editable.

WEB DEVELOPER

Uplift Code Camp

Oct 2020 - Jan 2021

Added a video learning platform on an existing website, prepared and connected the server to the database, created the main routes, user account creation and password reset.
